Facts & Figures

We set standards in logistics for the military and in the supply of troops.

A perfect fit for the military sector:

Fast and reliable logistics in over 30 countries.

Transport route for our customers:

Around the world more than 20 times a year.

Infrastructure management for water:

3 million liters, even at -21° Celsius.

The size of 26 soccer fields:

180,000 m² largest single illuminated area.

Our reliability speaks for itself:

has already successfully realized more than 1,000 contracts.

Efficiently transported worldwide:

More than 1,600 containers every year.

Training scenarios effectively simulated:

5,000 man-days of role-playing missions.

Even under the most challenging conditions:

5,000 portable toilets supplied for field camps.

MEPS Solutions

Your reliable partner for over 15 years.

Ladies and Gentlemen,

Since MEPS was founded more than 15 years ago, we have focused on rapid response and precise support in the field. As a reliable partner to the armed forces, we enable you to concentrate on your core missions while we take care of secondary tasks. We are characterized in particular by our adaptability to the changing requirements in the military sector.

Appreciation for the profession of soldiers has rightly regained importance in society. We see this development as confirmation that we should continue to support the armed forces in the best possible way.

With kind regards

Lukas Eckoldt
Business Development

Guido Henseler
General Manager

360° Services for Military.

Your partner for every phase
of the mission. Worldwide.

The success story of today's TOI TOI & DIXI Group began in 1973 with a simple Dixi toilet. Today, more than 50 companies are part of the group. One of them is MEPS SOLUTIONS, based in Ratingen, your specialist for comprehensive services in the military sector.

From the planning of completely self-sufficient infrastructures on undeveloped sites to mobile space solutions, water supply and wastewater disposal, power supply and the procurement of merchandise of all kinds - our options for supporting you are vast and varied.

We support you with all topics relating to:

- » Encampment
- » Base Operations
- » Maneuver Logistics
- » Troop Supply Facility
- » Management
- » Merchandise
- » Kitchens
- » and much more

**Complete service
from a single source.**
Simple. Experienced. Efficient.

Proven methods.

Reliable basic operation with our 360° services.

Phase
1

Conception & planning

Together with various experts, we plan the optimum concept for your military camp. With our 360° Services for Military, you get everything from a single source. And it goes without saying that we comply with national laws, special and environmental regulations and your wishes, of course.

Phase
2

Delivery, set-up & commissioning

We implement the planned concept in consultation with your on-site staff. Our team of experts will professionally set up the equipment and ensure that all components are working correctly and are ready for use.

Phase
3

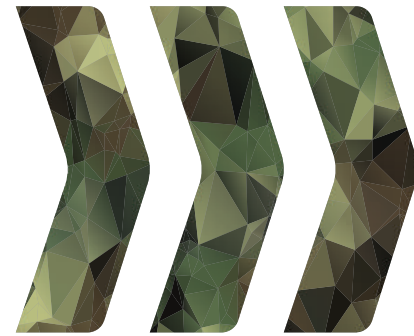

Ongoing operation & maintenance

State-of-the-art equipment and experienced specialists guarantee trouble-free operation. Specialists are on duty around the clock for critical areas and can react quickly to unexpected events.

Phase
4

Dismantling

As soon as the exercise is completed, our experienced teams ensure fast and efficient dismantling.

Services for the field camp

Supply and installation of refrigerated containers, storage and catering tents and office containers. Our services also include assembly, commissioning, maintenance and cleaning. We take care of all connection work and water management for the shower containers and tanks. We also provide mobile toilets, lighting and power supply, including a 24/7 standby service.

General conditions

- » Troop strength: 1,500 men
- » Region: Southern Germany
- » Duration: 21 days
- » Realization: within from 14 days
